Mobil

Mobil Oil Corporation Material Safety Data Bulletin

I. Product Identification
Mobil 600 W Cylinder Oil

Supplier: Mobil Oil Corp.
24 Hour Emergency (Call collect): (609) 737-4411
Chemical Names and Synonyms: Pet. Hydrocarbons and Additives
Chemtrec: (800) 424-9300
Use or Description: Cylinder Oil
Product and MSDS Information: (800) 662-4525

II. Typical Chemical and Physical Properties

III. Potentially Hazardous Ingredients

None

See sections XII and XIII for regulatory and further compositional data.

Sources: A=ACGIH-TLV, A*=Suggested-TLV, M=Mobil, O=OSHA, S=Supplier
Note: Limits shown for guidance only. Follow applicable regulations.

IV. Health Hazard Data

---- Includes aggravated medical conditions, if established ----
Threshold Limit Value: 5.00 mg/m3 suggested for oil mist
Effects of Overexposure: Not expected to be a problem.
V. Emergency and First Aid Procedures

----For Primary Routes of Entry----

Eye Contact: Flush thoroughly with water. If irritation persists, call a physician.
Skin Contact: Wash contact area with soap and water.
Inhalation: Not expected to be a problem.
Ingestion: Not expected to be a problem when ingested. If uncomfortable seek medical assistance.

VI. Fire and Explosion Hazard Date

Flash Point F (C): 540(282) \text{(ASTM D-92)}
Flammable Limits.
LEL: .6%
UEL: 7.0%
Extinguishing Media: Carbon dioxide, foam, dry chemical and water fog.
Special fire fighting procedures: Water or foam may cause frothing. Use water to keep fire exposed containers cool. Water spray may be used to flush spills away from exposure. For fires in enclosed areas, firefighters must use self-contained breathing apparatus. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water supply.
Unusual fire and explosion hazards: None
NFPA Hazard ID: Health: 0, Flammability: 1, Reactivity: 0

VII. Reactivity Data

Stability (Thermal, Light, etc.): Stable
Conditions to avoid: Extreme heat.
Incompatibility (materials to avoid): Strong oxidizers
Hazardous decomposition products: Carbon monoxide
Hazardous polymerization: will not occur.

VIII. Spill or Leak Procedure

Environmental Impact: Report spills as required to appropriate authorities. U.S. Coast Guard regulations require immediate reporting of spills that could reach any waterway including intermittent dry creeks. Report spill to Coast Guard toll free number (800) 424-8802. In case of accident or road spill notify CHEMTREC (800) 424-9300.
Procedures if material is released or spilled: Absorb on fire retardant treated sawdust, diatomaceous earth, etc. Shovel up and dispose of at an appropriate waste disposal facility in accordance with current applicable laws and regulations, and product characteristics at time of disposal.
Waste Management: Product is suitable for burning in an enclosed, controlled burner for fuel value or disposal by supervised incineration. Such burning may be limited pursuant to the Resource Conservation and Recovery Act. In addition, the product is suitable for processing by an approved recycling facility or can be disposed of at any government approved waste disposal facility. Use of these methods is subject to user compliance with applicable laws and regulations and consideration of product characteristics at time of disposal.
IX. Special Protection Information

Eye Protection: Normal industrial eye protection practices should be employed.
Skin Protection: No special equipment required. However, good personal hygiene practices should always be followed.
Respiratory Protection: No special requirements under ordinary conditions of use and with adequate ventilation.
Ventilation: No special requirements under ordinary conditions of use and with adequate ventilation.

X. Special Precautions

No special precautions required.

XI. Toxicological Data

---Acute Toxicology---
Oral Toxicity (Rats): Nontoxic – based on testing of similar products and/or the components.
Dermal Toxicity (Rabbits): Nontoxic – based on testing of similar products and/or the components.
Inhalation Toxicity (Rats): Not applicable – harmful concentrations of mists and/or vapors are unlikely to be encountered through any customary or reasonably foreseeable handling, use, or misuse of this product.
Eye irritation (Rabbits): Expected to be non-irritating. Based on testing of similar products and/or the components.
Skin irritation (Rabbits): Expected to be non-irritating. Based on testing of similar products and/or the components.

---Subchronic Toxicology (summary)---
Severely solvent refined and severely hydrotreated mineral base oils have been tested at Mobil Environmental and Health Sciences Laboratory by dermal application to rats 5 days/week for 90 days at doses significantly higher than those expected during normal industrial exposure. Extensive evaluations including microscopic examination of internal organs and clinical chemistry of body fluids, showed no adverse effects.

---Chronic Toxicology (Summary)---
Expected to be negative in a two year mouse skin painting study based on testing of similar products and/or the components. The base oils in this product are severely solvent refined and/or severely hydrotreated. Chronic mouse skin painting studies of similar oils showed no evidence of carcinogenic effects.

XII. Regulatory Information

Governmental inventory status: All components registered in accordance with TSCA, EINECS, AICS, and MITI.
Dot:

Shipping Name: Not applicable
Hazard Class: Not applicable

RCRA Information: The unused product, in our opinion, is not specifically listed by the EPA as a hazardous waste (40 CFR, Part 261D), nor is it formulated to contain materials which are listed hazardous wastes. It does not exhibit the hazardous characteristics of ignitability, corrosivity, or reactivity and is not formulated with contaminants as determined by the Toxicity Characteristic Leaching Procedure (TCLP). However, used product may be regulated.

This product has been authorized by USDA for use under the following category:
H2 – Lubricants with no food contact

U.S. Superfund Amendments and Reauthorization Act (SARA) Title III: This product contains no “Extremely Hazardous Substances”.

SARA (311/312 – Formerly 302) Reportable Hazard Categories: None

This product contains no chemicals reportable under SARA (313) toxic release program.
